---

An able, enthusiastic, skilled, and reliable mobile application developer seeking a position that reflects my experience, skills, and personal attributes including dedication, meeting goals, creativity, and the ability to follow through.

## PROFILE SUMMARY:

---

- ❖ A Mobile Application Developer with nearly 13 years of experience Software Development, Application Maintenance & Support and Project Execution
- ❖ Adept in analyzing information system needs, evaluating end-user requirements, custom designing solutions, troubleshooting for complex information systems management
- ❖ Well versed with Mobile Application Development (Enterprise Mobility Solutions)
- ❖ Experienced in working with clients, business managers and technical teams for executing concurrent projects
- ❖ Proficiency in development, troubleshooting, designs and technical documentation for Mobile Application Development (using via, Kotlin, Java etc.)

## EXPERIENCE:

---

- ❖ Created, Released & Managed an Application available on play store (Ringer) & have more than **80,000** downloads & continuing.
- ❖ *Company:* Samsung R&D Institute Bangalore - India.  
*Designation:* Chief S/W Engineer  
*Duration:* June 2022 – Continue  
*Main Roles:*
  - Leading team to complete workplace activities
  - Motivate to team to keep them align with common goal.
  - Develop and enhance Multiple projects.
  - Review code and work done by team members.
  - Fixing issue and Implement feature in existing application (SmartThings, Media Output Etc.).
  - Developing modules, its flows and scope of that project.
  - Managing Taskforces for specialized research or tasks.

- ❖ *Company:* UST BlueConch Technologies. (A part of UST Global)  
*Designation:* Sr. Software Engineer  
*Duration:* May 2021 – Continue  
*Main Roles:*
  - Leading team to complete workplace activities
  - Motivate to team to keep them align with common goal.
  - Review code and work done by team members.
  - Managing the Product's Git and merging pull requests
  - Fixing issue and Implement feature in existing application.
  - Developing modules, its flows and scope of that project.
  
- ❖ *Company:* FasTrax InfoTech Pvt. Ltd  
*Designation:* Lead Software Engineer  
*Duration:* Sept 2019 – May 2021  
*Main Roles:*
  - Leading team to complete workplace activities
  - Motivate to team to keep them align with common goal.
  - Review code and work done by team members.
  - Managing the Product's Git and merging pull requests
  - Fixing issue and Implement feature in existing application.
  - Design robust architecture for mobile applications using design patterns.
  - Developing modules, its flows and scop of that project.
  - Design a dynamic structure which can be used in multiple application. Other Responsibilities:
  - Created 2 successful R&D work related to IoT.
  - Work for company with the hat of HR
  
- ❖ *Company:* PurpleDocs (PurpleBits Infosystems Pvt. Ltd)  
*Designation:* Sr. Mobile Application Developer and Product manager.  
*Duration:* April 2018 – Sept 2019 (1 year and 6 months)  
*Main Roles:*
  - Design a product feature and its architecture.
  - Fixing issue and Implement feature in existing application.
  - Product management.
  - Design robust architecture for mobile applications using design patterns.
  - Design a dynamic structure which can be used in multiple application.
  - To Design SQL database that integrate with Android applications Other Responsibilities:
  - Work for company with the hat of HR.
  - Manage and motivate team.
  - On site and telephonic client support
  
- ❖ *Company:* Symphinity Studio (OPC) Pvt. Ltd.  
*Designation:* Sr. Mobile Application Developer and Product manager.  
*Duration:* Sept 2017 – April 2018 (8 months)  
*Main Roles:*
  - Design a product from the scratch and its architecture.
  - To Develop a mobile application as a product that support their common data sever.
  - To Design SQL database that integrate with Android applications
  - Product management.
  - Design robust architecture for mobile applications using design patterns.
  - Design a dynamic structure which can be used in multiple application.
  - Develop local server environment for testing purpose.*Other Responsibilities:*
  - Work for company with the hat of HR.

- ❖ *Company:* TimeLoop Services Pvt. Ltd. (Project based)  
*Designation:* Sr. Mobile Application Developer  
*Duration:* July 2017 – Aug 2017  
*Main Roles:*
  - To Develop Mobile Application for clients.
  - To Create SQL database structures that integrate with Android applications
  - Work onsite as per requirement.
  - Develop a strong and robust architecture for mobile application.
  - Design strong database backend that can support with a huge data.
  
- ❖ *Company:* Udhyam Infosys Private Limited  
*Designation:* Sr. Software Engineer and Product manager.  
*Duration:* Jan 2015 – June 2017 (2 Year and 6 Month)  
*Main Roles:*
  - Develop Android based Application and fulfill client's requirement.
  - As a Technical expert, gather requirements from clients.
  - To Test and resolve various bugs in Android, iOS and Windows based applications.
  - To Create SQL database structures that integrate with Android applications and web interfaces.
  - Design a robust architecture for clients' requirement following the design patterns.
  - Lead/manage team and work with them.
  - Train new fresher accordingly.*Other Responsibilities:*
  - I was utilizing my skills as technical HR (technical screener).

  - Worked on new technologies on demand.
  - Communicate with client and give them confidence about our product as well as give reliable support for the product.
  
- ❖ *Company:* Proseon Technologies (Investar)  
*Designation:* Jr. Mobile Software Developer  
*Duration:* June 2013 - Dec 2014 (18 Months)  
*Main Roles:*
  - To Implement new features in existing application & enhance it to next level in iOS hybrid technology with PhoneGap as well as in Android with native (Java).
  - To lead an Android application internal project connected with java server using JavaEE which was implemented individually by me.
  - To Test and resolve various Android, iOS and Window based applications.
  - To Create SQL database structures that integrate with Android applications and web interfaces.*Other Responsibilities:*  
I was utilizing my skills as Level-1 HR (basic level technical screener).
  
- ❖ Worked as a trainee in The Linde Group, Vadodara for 1 Year.  
*Company:* The Linde Group (College Project)  
*Designation:* Trainee  
*Duration:* June 2012 – March 2013

## TECHNICAL SKILLS

Domain (Mobile Application)	Android Application Development (Enterprise Mobility)
Programming Languages	Kotlin, Java, C#, C++
Database system	SQLite, MySQL
Operating system	Windows, Linux(Ubuntu), Mac OS
Web technologies	JEE(J2EE), ASP.Net, PHP, HTML, CSS, JavaScript
Mobile technologies	Android(Main), iOS, Unity3D
Development Environments	Android Studio, Eclipse IDE, Microsoft Visual studio, NetBeans, Unity

Technologies	Android SDK, Bugzilla, JBoss, SVN, GitHub, Gradle, JSON, XML, SOAP, ReST
Other Soft Skills	Scrum, Management, Organization, Technical HR

## PROJECT OVERVIEW

NOTE: (To keep the CV short, I have described only 5 main projects)

### ❖ Project Title: SmartThings

*Duration:* June 2022 to Continue

*Key Role:* Development, Research , Maintain

*Platform:* Kotlin, Android

*Reference URL:* Ringer

*Key Features:*

- Add Automation so that user can Automate all their smart devices.
- Provide Fix Rule, So that user can Control all their devices at the same time.
- Give walk through for the smart things Automation.
- Give AI compatibility support for Automation.
- Extend the same application for Connected Cars

SmartThings

### ❖ Project Title: Media Output

*Duration:* April 2025 to Continue

*Key Role:* Development, Research , Maintain

*Platform:* Kotlin, Android

*Reference URL:* Ringer

*Key Features:*

- All the Media related Devices should be at one Place in notification bar.
- Media (audio) should be transferred to other deices without pairing too.
- Multiple media should be played from single phone.
- Multiple devices should be playing single media from same phone.
- One devices should be able to do broadcast also for same media.
- It should be able to fetch and control spotify multi-device support also.

### ❖ Project Title: Investar India

*Duration:* June-2013 to Dec. 2014

*Key Role:* Programming, System analysis.

*Platform:* JAVA, Android, iOS

Reference URL: [Investar](#)

Key features:

- Live intraday candlestick chart updates (1-min or 5-min, depending on the subscription type).
- Buy/Sell signals
- Technical indicators like (EMA, SMA, MACD, RSI, STOCHASTICS and VOLUME)
- Zoom-in/Zoom-out features like Recent data zoom, pinch zoom, Square zoom

❖ *Project Title:* Ringer

*Duration:* Dec. 2014 to March 2015 (3 versions)

*Key Role:* Application Design, Programming, Maintain, Release, Promoting

*Platform:* JAVA, Android

*Reference URL:* Ringer

*Key Features:*

- If you set a contact to mute then whenever you will get a call from that contact, then your phone will be silent even if phone is in ringing mode.
- Similarly set some contact to Ring and then whenever you will get a call from that contact It will ring.
- Customize your ringing mode specific to your contacts.

❖ *Project title:* Geet

*Duration:* 2 months.

*Key Role:* Development, Design Architecture

*Technologies:* JAVA, Android

- I have developed this application from TimeLoop Services Pvt. Ltd.
- It was from a single project where I have developed complete application along with architecture and designs.
- I have also have explored design patterns, because this application was a lot more about managing data on application and the server side with the best efficiency in very less time.

## AREA OF INTEREST:

---

JAVA, Android, Efficiency, Research on Algorithm, Web application development, Machine Learning, Artificial Intelligence.

## EDUCATIONAL QUALIFICATION:

---

COURSE	BOARD	PERCENTAGE	YEAR OF PASSING
M.Tech (AI)	IIT-Madras	Perusing	Continue
BE (Computer Science and Engineering)	GTU	6.55 CGPA	2013
HSC	HSEB	59.8 %	2009
SSC	GSEB	74.92 %	2007

## ACADEMIC ACHIEVEMENTS

---

- ❖ Perusing MTech from IIT-Madras In AI and Data Science.
- ❖ Successfully organized seminar on PHP, MySql handed by IIT Mumbai, held at BITs edu campus 2012.
- ❖ Won a chess competition, organized for college.

## PERSONAL INFORMATION

---

- *Full Name:* Nandha Pulah Kiritbhai
- *Address:* "Shriji Krupa", Alap colony, Mangrol Road, Keshod -362220, Gujarat, India.
- *Date of Birth:* September 12th, 1992.
- *Languages Known:* English, Hindi, and Gujarati.
- *Hobbies:* Chess, Travelling, Googling, Playing with new technologies, Reading.
- *Marital Status:* Unmarried

## SELF-DECLARATION

---

I declare that information and facts stated above are true and correct to the best of knowledge and belief
